YOUNG MEN'S VOCAL WORKSHOP

This new program, led by Voice Specialist Dr. Jeanne Goffi-Fynn of Teachers College, Columbia University, is designed to help male singers build confidence and vocal technique as they navigate the voice change and prepare for a lifetime of singing. Students will sing in the range that is comfortable for them in the company of peers figuring out how to keep using the instrument that changes a little or a lot every day. The program is open to all young men, including transgender, non-binary, and non-gender conforming individuals.

MEETS THURSDAYS, 5:15-6:15 pm, at
